

BINEET GUPTA

+91 8881279822 • bineet.gupta.civ23@iitbhu.ac.in • [GitHub](#) • [Portfolio](#) • [LinkedIn](#) • [LeetCode](#)

Technical Skills

Frontend: React.js, React Router, Tailwind CSS, HTML5, CSS3, JavaScript (ES6+), Chart.js

Backend: Node.js, Express.js, REST APIs

Database: MongoDB, Mongoose

HTTP & Libraries: Axios, Fetch API

Languages: JavaScript, C++, C, Python

Tools & Platforms: Git, GitHub, Vercel, Render, VS Code, Vite

Concepts: Data Structures & Algorithms, OOP, Component Architecture, Client-Server Model

Projects

WordSeek Helper — Full-Stack Word Puzzle Tool | [React](#) · [Vite](#) · [Tailwind CSS](#) · [Node.js](#) · [Express](#) [GitHub](#) ↑

- Built a full-stack web app for solving Wordle-style puzzles via pattern-based filtering, with a React (Vite) + Tailwind frontend on Vercel and a Node.js/Express REST API backend on Render.
- Implemented server-side dictionary filtering supporting 3 constraint types — pattern matching, included letters, and excluded letters — returning valid 5-letter words in real time.
- Engineered a keyboard-first UX (arrow-key navigation, Enter to solve, Esc to clear) with a dark-themed fully responsive interface compatible across mobile and desktop.
- Configured environment-based API URLs (`VITE_API_URL`) and managed cross-origin client-server communication between separate Vercel and Render deployments.

Dukaan — Full-Stack E-Commerce Store | [React](#) · [React Router](#) · [Node.js](#) · [Express](#) · [MongoDB](#) · [Mongoose](#) [GitHub](#) ↑
[Live](#) ↑

- Built a complete MERN stack e-commerce platform (Gupta General Store) with React frontend, Node.js/Express REST API backend, and MongoDB database; deployed live on Vercel.
- Implemented client-side routing with React Router for seamless multi-page navigation and used Axios for all API communication between frontend and backend.
- Designed MongoDB schemas with Mongoose for product and data modelling, and built Express REST endpoints for CRUD operations.

SelfTrack — Attendance Tracker | [HTML](#) · [CSS](#) · [JavaScript](#) · [Chart.js](#) [GitHub](#) ↑

- Built a client-side attendance management app with dynamic subject creation, custom weekly schedules, and real-time actual vs. projected percentage calculations.
- Integrated Chart.js for visual analytics dashboards; added dark mode support and ARIA accessibility features for a polished, inclusive UX.

Education

B.Tech, Civil Engineering — IIT (BHU) Varanasi	CGPA: 8.20	2023 – 2027
CBSE Class XII — Sunbeam Suncity	92.20%	2023
CBSE Class X — St. Joseph's School	93.80%	2021

Certifications

Supervised Machine Learning: Regression & Classification — [DeepLearning.AI](#) & [Stanford \(Coursera\)](#) | Oct 2024

C++ Programming with Certificate — [GeeksforGeeks](#) | 2025

Python Programming with Certificate — [GeeksforGeeks](#) | 2025

Achievements & Activities

- **LeetCode Contest Rating: 2,125 (Guardian)** — ranked #11,287 globally (top 1.35%); solved 820+ problems (291 Easy, 441 Medium, 88 Hard).
- **CodeChef Rating: 1,669 ★★★** (ankit_0917) — ranked #10,084 globally & #9,022 in India; solved 253 problems.
- **Publicity Executive, Spardha'24** (IIT BHU Sports Fest) — drove 100+ participant registrations through targeted outreach campaigns.
- **Publicity Executive, Shilp'25** (IIT BHU Cultural Fest) — led cross-platform promotional campaigns to maximize event reach and registrations.
